+6283146542084 | l200190083@student.ums.ac.id | <https://linkedin.com/in/nabilaba> | <https://nabilaba.github.io>

Nawud RT05/RW03, Tegalmade, Mojolaban, Sukoharjo, Jawa Tengah

I have loved coding since middle school. I really like self-taught related to coding. I am the type of person who is optimistic and never gives up. I know several programming languages PHP, Java Android, and Javascript

Work Experiences

PT Ruang Raya Indonesia - Jl. Dr. Saharjo No.161, Manggarai Selatan, Tebet, Kota Jakarta Selatan, Daerah Khusus Ibukota Jakarta 12860

Feb 2022 - Jul 2022

Front End Engineering Student in Studi Independen Ruangguru x Kampus Merdeka

Ruangguru is the largest and most comprehensive education technology company in Southeast Asia with over 5000 employees.

- Knowing how to build a Single Page Application Website using React.js as javascript library using webpack, create-react-app, Next.js and Vitejs
- Working with team to built a website using agile method, and at least i got the top 5 as finalist of Final Project
- Knowing about state management like redux tools using zustand
- Knowing how to fetching data using fetch and axios
- Knowing css library for React.js like antd, material-ui, react-bootstrap, Tailwindcss, but my favorite right now is chakra-ui
- Other archives: knowing how to use Jira Software like handling Roadmaps and Child Issues, knowing how to properly handle github, knowing useState useEffect and useRef
